

Le Zhang

3B Honours Physics | Computing Minor

Cell: (647) 721-6033

Email: le.zhang@uwaterloo.ca

Website: www.zhangle.ca

Education

University of Waterloo (Undergraduate)

2021-Present

- Candidate for Bachelor of Science, Honours Physics and Computing Minor

Qualifications

- Excellent ability to build the program by **Python**, **C/C++** and version control with **git**
- Capable of **CUDA programming** uses **PyTorch** for deep learning model training
- Skilled use of **shell script** to complete automated testing (Linux OS)
- Master in web related programming **HTML**, **CSS**, **JavaScript** and **MySQL**
- Skilled in audio and visual editing by **Photoshop**, **Final Cut Pro**, **Logic Pro** and **Davinci Resolve**

Work Experience

Instructional support Assistant

University of Waterloo

Jan. 2024 – April. 2024

- Use **shell script** to code program for programming contents check
- Work with teaching **server** to **deploy** and **maintain programs** on the server side
- Work with other ISA boost the **team work** skill and **leaderships**

Website Maintainer

University of Waterloo

Sept. 2023 – Dec. 2023

- Maintain the content of the website contents by UW Development Kit with knowledge **HTML/CSS/JS**
- Ensure website responsiveness and accessibility on various devices
- Develop **Python scripts** to check the website accessibility and other requirements

Audio-visual Events Assistant

University of Waterloo

Jan. 2023 – April. 2023

- Record and edit with professional video equipment/software **Final Cut Pro**
- Develop basic equipment **managements software** construction by **Python**
- Work with live PA system by Multichannel Audio Mixing

Projects

CPU Emulation

2024

- Use **Python** to simulate the **CPU** and **Memory** behavior in bitwise as the sample to show the logic of computer
- Develop and implementation of CPU **instruction sets**
- Develop CPU peripheral systems such as **memory management**, **I/O**, and **simple C compiler** and **OS**

Data Analysis & Deep Learning by Python

2023

- Develop data processing programs by Python with **Numpy**, **Scipy**, **Matplotlib** and **PyTorch**
- Using **CUDA programming** for deep learning model training
- Using deep learning to predict the future trend based on existing data

Classic Electrical Games Development

2023

- Develop E-games with graphic user interface by **Pygame** module in **Python** library
- Develop game logic processing modules in **C/C++** to boost data processing efficiency and build **API** that can be easily called in Python environments

Computational Physics Simulation

2023

- Build models using knowledge of physics and mathematics by **Python**, **C/C++**
- Develop **muti-threads** algorithms to improve simulation efficiency
- Validate simulation results and use visualizations by **Matplotlib**

Website Develop & Server Maintenance

2017 - Present

- Develop the website handle concurrency and parallelism by using **HTML**, **CSS**, and **JavaScript**
- Set up **MySQL** database to handle the data processing and store
- Deploy the server environment independently, e.g. **nginx** and **Python**

Activities and Awards

- Excellent Academic Standing | 2021-2023
- First Robotic Competition – General Motor industrial design award | 2018
